TED ATAKENT COLLEGE

A Tradition of Excellence in Education

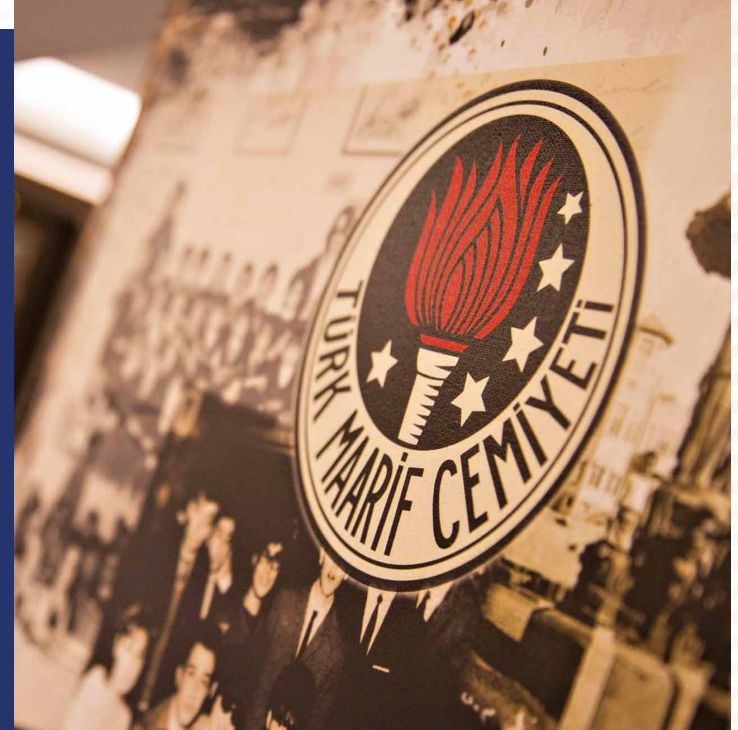

Established under the umbrella of the Turkish Education Association (TED), one of Türkiye's most respected non-governmental organizations founded in 1928 upon the vision of Mustafa Kemal Atatürk, TED Atakent College has been providing high-quality education since the 2015-2016 academic year across its Esenyurt and Halkalı campuses.

TED's mission is to enhance educational standards in Türkiye, support academically successful students with limited financial means, and contribute to the development of modern, forward-thinking individuals. In line with this mission, TED Atakent College offers a comprehensive educational experience from kindergarten through high school.

Our campuses are designed to meet the highest standards of contemporary education, featuring well-equipped classrooms alongside a wide range of facilities, including science laboratories, libraries, conference halls, art and music rooms, sports complexes, swimming pools, and activity areas that foster students' academic and personal growth.

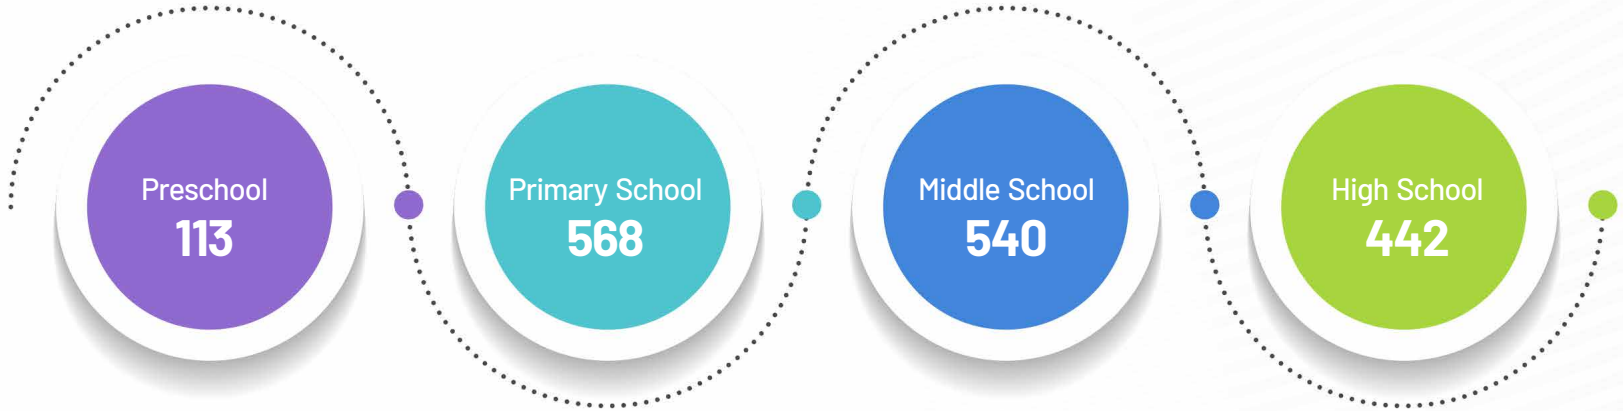

At TED Atakent College, we are committed to nurturing individuals who are intellectually curious, socially responsible, and respectful of Atatürk's principles and the core values of Turkish National Education. We aim to cultivate students who think critically, embrace creativity, and actively engage in both academic and social life.

As the first TED school established on the European side of İstanbul, TED Atakent College proudly brings together tradition and innovation, setting a benchmark for excellence in education.

2025 - 2026 ACADEMIC YEAR ENROLLMENTS:

HIGH SCHOOL STUDENT ENROLLMENT BY GRADE

Preparatory Year: 48 | 9th grade: 127 | 10th grade: 99 | 11th grade: 89 | 12th grade: 79

STUDENT PROFILE

All students are Turkish nationals.
56% are female and 44% are male.

High School Faculty Profile

International Programs

- Turkish Ministry of Education
- Advanced Placement Program (AP)
- BTEC (Business Technology Education Council)
- International Youth Award Program
- Canada Dual Diploma Programme
- Canada Student Exchange Programme

Curriculum

The school follows the Turkish Ministry of Education curriculum and regulations. All graduates receive Turkish High School Diploma.

The majority of students also follow the Science Education Curriculum unique to accredited TED Schools and receive the corresponding certificate upon graduation. Having to choose among the elective courses offered during the 5-year high school education.

Language

English is the main language taught intensively throughout K-12.

Each student chooses German or Spanish as a second foreign language.

Prep. Class is compulsory in high school for students who do not pass the Prep Exemption Exam.

English is the medium of instruction in Science and Math classes in Grade 9 and 10.

Honors

According to the Ministry of Education regulations, students with an average of 85 receive high honors and those with an average of 70 receive academic honors.

One academic year consists of two semesters and the final grade of the student is the average of the two semesters.

In addition to the Ministry of National Education Curriculum

ACADEMIC SCIENCE PROGRAM (BİY)

4-year certificate program for high-performing students program requirements:

- 9th grade: Innovation and entrepreneurship (innova-ted) work
- 10th grade Fall: Research
- 10th – 11th grade: Turkish Sci & Tech Council High School Research Project Competition
- Seminars
- Social responsibility projects
- TED Talk speeches

BUSINESS AND TECHNOLOGY EDUCATION COUNCIL (BTEC Pearson)

- BTEC - A global certificate for applied learning with a practice-oriented model rather than timed exam-oriented training.

INTERNATIONAL PROGRAMMES

Canadian Dual Diploma Programme

In collaboration with Atlantic Education International New Brunswick Offshore Schools Program, additional courses are offered for a Canadian Diploma.

TED – Canada Student Exchange Programme

Offers exchange opportunities for one month / one semester / a school year.

Credits are transferable for semester / year long exchanges.

AP (Advance Placement) Programme

TED Atakent College has been recognized by the College Board as of November 5th, 2018, and has been authorized to offer Advanced Placement (AP) courses, AP exams and SAT exams. The AP program is a challenging yet flexible academic program based on the commitment, passion and hard work of high school students and teachers.

AP courses offered:

- Calculus AB and BC
- Physics 1
- Biology
- Chemistry
- Macroeconomics
- Microeconomics
- Psychology
- English Language & Composition

SCIENCE AND ART

Laboratories

- Chemistry Lab. (TED Research Lab)
- Biology Lab. (Genome Lab)
- Physics Lab. (Cern Lab)
- Computer Lab. (Dream Design Center)
- Robotics Studies Coding
- STEAM & Maker Studio
- Music Studio

Science

Technology

Engineering

Arts

Mathematics

SPORTS AND CLUBS

FLL and FRC:

National and international competitions – students design build and program their own robots.

Maker Club:

In this club, which aims to spread Maker culture as well as participating in fairs and university robotics competitions, students also carry out awareness-raising activities about Maker culture.

TÜBİTAK Turkish Science and Tech Council Project Club:

In this club, our students continue their studies during grade 11 which are focused on the topics they have chosen in the second semester of the 10th grade for the TÜBİTAK Project. Our club teachers guide students on projects related to Physics, Chemistry and Biology.

All of our students are participating in our Swimming Training Programme!

Outdoor and Indoor Sports Areas
Gym + 11.500 m2 open sports areas

Our high school teams have been competing in the inter-high school league as licensed players

Ecological House Activities

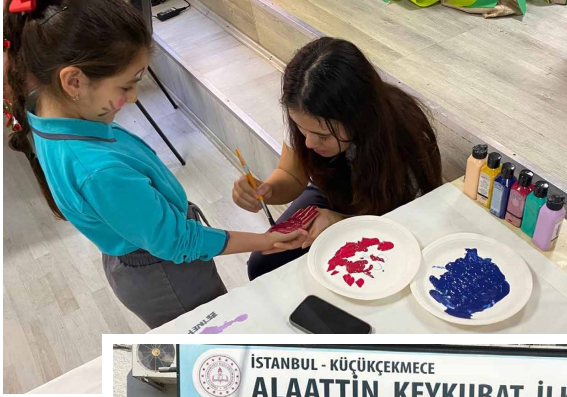

CLUBS

- Science, Mathematics and Technology Club
- Philosophy or Thinking Education Club
- FIRST LEGO League
- FIRST Robotics Competition
- Photography Club
- Gastronomy
- Entrepreneurship Club
- Global Citizenship Club
- Visual Arts Club

- Short Film
- MUN (Model United Nations) Club
- Debate Club
- Music Club
- Sports Club
- Drama Club
- Mind Games Club
